Further to my comments to you before Master Quinn yesterday, I wanted to detail my comments regarding same.

I was shocked to receive yesterday, a copy of Belzil, J's order dispensing with the need for Don Broder's renunciation. In it, details that representations from counsel were made. Needless to say, I have a number of serious concerns regarding this Order.

My client, only received your application this past Saturday. The date the matter was heard dispensing with the renunciation was the 24th of May, a date prior to Mr. Broder's receipt of the application.

Additionally, I confirm that the gag Order of Master Quinn (which he had no jurisdiction authority or erred in law in so doing) had not been entered prior to obtaining the above Order. Additionally, I had advised you that my client had provided me with instructions to appeal the matter.

I further confirm that you were aware that the reason for the Order not having been entered was that we were taking issue with the contents of same.

In any event, it will be my position that it was improper to proceed with obtaining an Order dispensing with the renunciation of Don Broder in light of the above facts.

Additionally, we will be making application to remove your clients as administrators due to,
